

# California OES Weather Threat Briefing

Thursday, February 25, 2021  
9:00 AM PST

**Day 1 (Thursday):** Gusty winds are expected across portions of southern California again today. Tree and power line damage, travel impacts, and elevated fire weather concerns are all possible.

National Weather Service  
Western Region Headquarters  
Regional Operations Center  
Salt Lake City, UT

# **WEATHER KEY POINTS**

**02/25/21 - 03/03/21**

## **Thursday-Wednesday**

- Gusty winds will continue through Thursday for much of southern California
  - The strongest winds will be in the mountains, some inland valleys, and portions of Los Angeles and Ventura counties
  - Tree and power line damage is possible, travel impacts are likely for high profile vehicles, and elevated fire weather conditions with low humidity values are expected
- Gusty conditions are again possible over northern California starting Saturday, and across southern California on Sunday
- There is a small chance for some light precipitation, primarily over the mountains, this weekend through Monday
- Additional light precipitation may be possible across the state for the first half of next week
